

15<sup>th</sup> July 2008

Dear Parent

As you will have all seen over the past months, both on TV and in the media, the price of raw commodities including fuel and foods, have increased in price significantly. In some cases we have seen increases that are in excess of 20%. It is unfortunate that as a catering provider we are only able to absorb these costs for a short period of time before we need to pass the increases on to you, the customer. In some cases we have held our prices for 4 years but with regret now need to make the change.

Therefore with effect from September 2008, there will be an average price increase of 7% on the current tariff, with one exception, being fruit, which currently is sold at cost and has therefore been brought into line with the rest of the tariff.

I hope that you understand the reasoning behind this and we all hope in anticipation that we will soon start to see the cost of food levelling off.

Yours Sincerely

**Paul Woodward**
